1999 Analytical Review DWCCA-4430-PJL

Dear Ms. Weber:

Thank you for your response to our letter of May 5, 2000, concerning the analytical review of your 1999 annual report. Your answer has been helpful in providing information that will enable us to better provide guidance to the utility regarding proper utility accounting and the preparation of future annual reports. However, we feel the issue needs further clarification before we can complete this analytical review.

You indicated in your letter that the \$2,800 reported as contributions in aid of construction were water hookup charges turned over from the village. As a follow up to that letter, Kathy Butzlaff of our staff spoke with you regarding the issue. Please note the following regarding the charges that we understand are fees to obtain building permits.

If the village board has set these fees as village fees and as long as these fees are charged to obtain a building permit and are not a condition to receive water service, they are acceptable. However, these are considered village fees and are not water utility charges. Therefore, they should be recorded on the village's books, not the water utility books. An adjustment should be made to transfer any of these building permit fees collected since their establishment in 1996 from Account 271 of the water utility's books to the village's books. Please report this adjustment in the 2000 PSC Annual Report and add a schedule footnote to explain that the adjustment was made per instructions in this letter.

Thank you for your attention to this matter. If you have any questions, please feel free to contact me at (608) 267-9198. You may consider the review closed.

Sincerely,

Peter J. Leege

1999 Analytical Review DWCCA-4430-PJL

Dear Mr. Simmelink:

The Public Service Commission (Commission) is in the process of completing an analytical review of your utility's 1999 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

During our review, we noted that there are no dollars reported as added during the year for Account 345, Services in column (c) of the Water Utility Plant in Service schedule on page W-8 and there are no services reported as added during the year in column (d) of the Water Services schedule on page W-16. However, there is \$2,800 reported for contributions for water services in column (b) of Account 271 on page F-17. Please explain.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Peter J. Leege
